

Hello,

I am Calvin Malagon and I am a junior web developer. I am currently a self employed freelancer on Upwork and Fiverr. During that time I have developed and designed user friendly websites, created a voice recognition bot, as well as several fullstack web apps such as Amazon and Netflix. I want to further my own knowledge and interest in web development, and I believe I'll be able to offer new ideas to help reach and surpass the primary objectives mentioned in its job description.

My core duties as a freelancer was to build a dynamic engaging website for my clients, involving testing and debugging them, designing user interfaces, and creating security measurements. My work has increased visitor clicks by 47% as well as increased the company's clientele. Prior to my freelance work I've also had experience as a Lead Developer and Project Manager in Palm Beach Hackathon. Managing a team of 6 we created a full stack blog application allowing users to connect and message with each other via the relationship as "Donor" and "Recipient", in order to spread awareness for "Gift of Life". As well as worked in an internship where we had to create a cross platform app for our investor using flutter. Experience in working with a team and completing tasks under a certain due date. I've also worked as a tutor on upwork teaching my clients how to write in Javascript for front and back end. Proficient at changing someone's perspective at understanding concepts.

This kind of experience has helped me improve my skills in leadership, allowed me to gain mastery over necessary development tools, learned to work around co-workers roadblocks to complete projects before deadlines, provided extensive knowledge on how to design user-friendly and secure website. I believe my skill set will benefit due to the clear potential to increase online revenue and expand its audience.

I'm looking forward to discussing this position and qualifications with you because I feel confident that I fulfill the requirements. You can contact me at 305-793-5024 or by email at calvin.m9233@gmail.com. Thank you for your time and consideration.

Sincerely,

Calvin Malagon
